

## Regulatory Improvement Ideas the Governor's Office of Regulatory Assistance is currently working on

- ▶ Clarifying issues surrounding the placement of large woody debris for fish habitat enhancement.
- ▶ Placement of highway signs to direct tourists to businesses that are not on the highway, but depend on highway traffic for business.
- ▶ Simplifying the liquor licensing process.
- ▶ Improving the sustainability of farmer's markets.
- ▶ Clarifying and simplifying requirements for beach nourishment projects.
- ▶ Working with natural resource agencies to help them collaborate together more often and improve communication.
- ▶ Clarifying what local building height regulations apply to which construction projects.
- ▶ Clarifying what is considered a ditch and what is considered a stream for regulatory purposes.
